ENGINEERING / DEVELOPER PROFILE
AI AUTOMATION · ERP · INTEGRATION

Marvin Kamp

Senior AI Process Automation & ERP Engineer

I modernize business processes with controlled AI. 25 years in software engineering, including 15 years deep in ERP and steel-sector processes - from C#/.NET and B2B EDI to n8n, LLM pipelines, APIs, human gates and auditable operations.

25

YEARS ENGINEERING

15

YEARS ERP / STEEL

B.SC.

BUSINESS INFORMATION SYSTEMS

CORE / CAPABILITY

AI PROCESS AUTOMATION

Process mapping, LLM and agent pipelines, human gates, evaluation, audit and recovery

C# / .NET / SQL

Long-lived business systems and safe incremental modernization

ERP / STEEL / B2B EDI

Process depth, material reality, mappings, validation and operations

APIs / FULL STACK / OPS

OpenAPI, TypeScript, React, data systems, Docker, n8n and self-hosting

SELECTED / EVIDENCE

MK1 Command	Owner-built AI operations control plane	command.mk1.rocks
AI Process Modernizer	Executable human-gated TypeScript lab	github.com/mk1-dev0
CargoTrouper	Publicly documented co-founder/programmer role	startupfever.de/cargotrouper
n8n + OpenAPI Guards	Executable Python and .NET reference labs	github.com/mk1-dev0
